From the New York Times bestselling creators of *Click, Clack, Moo*, comes an entertaining introduction to politics. My fellow Americans: It is our pleasure, our honor, our duty as citizens to present to you Duck for President. Here is a duck who began in a humble pond. Who worked his way to farmer. To governor. And now, perhaps, to the highest office in the land. Some say, if he walks like a duck and talks like a duck, he is a duck. We say, if he walks like a duck and talks like a duck, he will be the next president of the United States of America. Thank you for your vote.

There are three types of teacherpreneurs: classroom, business, and consultant

teacherpreneurs.

Classroom

teacherpreneurs inspire and motivate students to be the best they can be using outside resources, business teacherpreneurs teach students to become entrepreneurs, and consultant teacherpreneurs are usually former teachers who own a consulting business and go into schools to assist with improving academics. Each plays an important and different role within the educational system in the United States and one without the other would not assist students in gaining academic success. These individuals are the mainstay of educational systems, and without them, school systems would fail. Enhancing Teaching and Leadership

Initiatives With Teacherpreneurs: Emerging Research and Opportunities is a critical scholarly resource that explores the characteristics and models of a teacherpreneur, their advantages and disadvantages, and examines how they can be used by current classroom teachers and school administrators to improve and enhance the teaching profession. Featuring a wide range of topics such as curriculum design, student outcomes, and ethics, this book is essential for teachers, educational consultants, school administrators, academicians, researchers, and students.

With the threat of concentration camps looming, he and his family board a ship bound for the other side of the world . . . ISABEL is a Cuban girl in 1994. With riots and unrest plaguing her country, she and her family set out on a raft, hoping to find safety in America . . . MAHMOUD is a Syrian boy in 2015. With his homeland torn apart by violence and destruction, he and his family begin a long trek toward Europe . . . All three kids go on harrowing journeys in search of refuge. All will face unimaginable dangers -- from drownings to bombings to betrayals. But

there is always the hope of tomorrow. And although Josef, Isabel, and Mahmoud are separated by continents and decades, shocking connections will tie their stories together in the end. This action-packed novel tackles topics both timely and timeless: courage, survival, and the quest for home.

Written by veteran educator

and active teacher trainer, Silva DeRuvo Provides helpful advice for effective collaboration between teachers. The book includes strategies for joint curriculum mapping, as well as for measuring student mastery of identified content area standards. The Essential Guide to RTI Carson-Dellosa Publishing We know that literacy is the key to learning in school, yet millions of middle and high school students lack the literacy skills they need to succeed. What can educators do? In *Creating Literacy-Rich Schools for Adolescents*, authors Gay Ivey and Douglas Fisher make a compelling case that all teachers--across the content areas--have a role to play in students' development of literacy, which they define as reading, writing, speaking, listening, and viewing. Rather than focusing solely on reading instruction and the cliché that says "all teachers are

teachers of reading," they urge teachers to incorporate rich literacy-based learning experiences into their classrooms, with the goal of helping students to learn and think across the curriculum. With research-based findings, engaging examples, and extensive lists of resources, Ivey and Fisher encourage readers to * Reexamine the materials, experiences, and expectations of the English/language arts classroom; * Use strategies to improve literacy in all the content areas and seek alternatives to the traditional textbook; * Make independent reading an important part of students' ongoing literacy development; * Design and use interventions that really work for struggling students; and * Consider the schoolwide elements--professional development, peer coaching, leadership, and assessment--that should be in place to support teachers and

students. Essential questions provide the focus for each chapter, and Quality Indicators for Secondary Literacy help readers gauge where they are on the continuum of providing a meaningful literacy experience for students. *Creating Literacy-Rich Schools for Adolescents* will inspire educators to take up this challenge in their own school with new confidence that the work is worthwhile and achievable.
