In this re-examination of the roots of the relationship between religion and science, David Hawkin focuses on the concept of autonomy as he explores the question: Is there continuity and compatibility between the autonomy that underlies Christian faith and the role of individual freedom in the technological age? What makes this work particularly valuable is Professor Hawkin's review of the theological, philosophical, political, psychological, and sociological works that have formed our ideas of the nature of both Christianity and modernity — Reimarus, Strauss, Schweitzer, and Bultmann on the quest for the historical Jesus; Bauer and Turner on Christian faith and practice; Machiavelli, Nietzsche, Darwin, Freud, and Marx on our historicity; Gogarten, Cox, and Bonhoeffer who affirm our autonomy in the technological process; Ellul and George who deny it.

Story Behind the Book "The Christy Miller series was actually born when a group of thirteen-year-olds challenged me to write a novel. I'd been questioning the content of their favorite books when they said, 'Why don't you write a book for us?' I told them no, I only wrote picture books. But they persisted: 'How hard could it be? We'll even tell you what to write! We want a love story with teenagers at the beach.' And there you go. Summer Promise first released seventeen years ago and is now translated into five languages. I continue to hear from readers all over the world, many girls saying that they gave their life to Christ after reading Summer Promise . I love that!" —Robin Jones Gunn
