model can provide a tool for self-discovery and realizing individual potential. The Circle of Nine presents nine archetypes that represent different, but equally important aspects of the feminine psyche. They portray both the life of the individual and the story of woman as a whole—a circle of ever-changing patterns that is a source of wisdom and inspiration. Three mothers, three queens, and three ladies form the circle. The Great Mother nurtures her children with a love that embraces the cycle of life, the Queen of the Night transforms the raw energy of instinct into skill and vision, and the Lady of the Hearth brings warmth and creativity into

the home. By recognizing these and the other six archetypes of the circle, women can hold up a mirror to their souls to gain new perspectives and unlock their potential. Drawing from history, her work with women's groups, and contemporary observations, Cherry Gilchrist presents a mythology that explores the psychology of the modern woman. Her analysis, interpretations, and practical advice help to unravel the mystery of the divine feminine and provide a useful guide for daily life.

“I felt as if I had had a cathartic emotional experience not by talking but by following Ms. Roxo’s coaching to tune into my energy and desire.”  
—New York Times  
What if your deepest fears and wounds were the KEY to living a turned on, passionate life, sharing your gifts with the world, and having mind-blowing orgasms along the way? And what if you could embrace all of you—all of your messy, wild, raw, sensual self—exactly as you are right now AND still feel good? This is what it means

---

to f\*ck like a goddess—literally and metaphorically. To let life make love to you and enjoy every bit, even the parts that hurt, and to find the magic in all of it. And this is your birthright. So why is it so damn hard for women to simply feel comfortable in their own skin, let alone feel strong and secure enough to freely share their gifts with the world? “Because each of us has been conditioned, programmed, and literally brainwashed into thinking we are not enough,” writes Alexandra Roxo,” and it is up to us to rewrite that story.” A prominent voice in transformational healing and the divine feminine, Roxo shares tried-and-true methods that have led to both her own healing and that of hundreds of her coaching clients over the

years. “We are in need of an uprising of bold, wild women who have reclaimed their bodies and stand in their sacred sexuality for them,” she writes. “As women, we need to liberate our voices, step into total security within ourselves, and fully own our raw, sensual power, finally letting go of the shame, guilt, denial, and repression that’s been put upon us.” The methods in this book will inspire you, challenge you, bring up your resistance, and unleash your gifts. It won’t always be easy, but if you do the work, you’ll discover what it really feels like to f\*ck like a goddess.

In this book Shirley See Yan Ma provides a Jungian perspective on the Chinese tradition of footbinding and considers how it can be used as a metaphor for the suffering of women and the repression of the feminine, as well as a symbol for hope, creativity and spiritual transformation. Drawing on personal history, popular myths, literature, and work with clients, *Footbinding* discusses how modern

women still symbolically find their feet bound through this ancient practice. Detailed case studies from Western and Asian women

demonstrate how Jungian analysis can loosen these psychological bindings allowing the client to reconnect with the feminine archetype, discover their own identity and take control of their own destiny.

This original book will be of great interest to Jungian analysts looking for a new perspective. It will also be of interest to anyone studying Chinese culture and psychology.

patterns--or archetypes--that shape men's personalities, careers, and personal relationships. Viewing these archetypes as the inner counterparts of the outer world of cultural stereotypes, she demonstrates how men and women can gain an invaluable sense of wholeness and integration when what they do is consistent with who they are. Dr. Bolen introduces these patterns in the guise of eight archetypal gods, or personality types, with whom the reader will identify. From the authoritarian power-seeking gods (Zeus, Poseidon) to the gods of creativity (Apollo, Hephaestus) to the sensual Dionysus, Dr. Bolen shows men how to identify their ruling gods, how to decide which to cultivate and which to overcome, and how to tap the power of these enduring archetypes in order to enrich and strengthen their lives. She also stresses the importance of understanding which gods you are attracted to and which are compatible with your expectations, uncovers the origins of the often-difficult father-son relationship, and explores society's deep conflict between nurturing behavior and the need to foster masculinity. In *Gods in Everyman* Dr. Bolen presents us with a compassionate and lucid male psychology that will help all men and women to better understand themselves and their relationships with their fathers, their sons, their brothers, and their lovers. But an indomitable spirit isn ’ t just reserved for the gods. In her book, Dr. Bolen revives the myth of Atalanta, an archetypal Artemis and mere mortal. To Atalanta, fate was no obstacle. Left to die because she was born a girl, she faces the Calydon Boar and outruns any man attempting to claim her as his wife. In Artemis, women are encouraged to discover their inner heroine—the activist who never gives up, who cannot be subdued. Whether women ’ s rights activists or Princess Merida from Brave, the Artemis personality is embodied in the modern women. Hailed by Isabel Allende, as a “ beautiful, inspiring book, ”

Artemis is dedicated to all women and girls who discover her unconquerable spirit in themselves or others. Inside find:

- Ancient and modern ways to be your authentic self

Bolen also discusses other goddess archetypes, including the romance-oriented Aphrodite, contemplative Hestia, and Hecate, the wise crone. Urgent Message from Mother  
Ballantine Books

A classic work of female psychology that uses seven archetypal goddesses as a way of describing behavior patterns and personality traits is being introduced to the next generation of readers with a new introduction by the author.

Psychoanalyst Jean Bolen's career soared in the early 1980s when *Goddesses in Everywoman* was published. Thousands of women readers became fascinated with identifying their own inner goddesses and using these archetypes to guide themselves to greater self – esteem, creativity, and happiness. Bolen's radical idea was that just as women used to be unconscious of the powerful effects that cultural stereotypes had on them, they were also

unconscious of powerful archetypal forces within them that influence what they do and how they feel, and which account for major differences among them. Bolen believes that an understanding of these inner patterns and their interrelationships offers reassuring, true – to – life alternatives that take women far beyond such restrictive dichotomies as masculine/feminine, mother/lover, careerist/housewife. And she demonstrates in this book how understanding them can provide the key to self – knowledge and wholeness. Dr. Bolen introduced these patterns in the guise of seven archetypal goddesses, or personality types, with whom all women could identify, from the autonomous Artemis and the cool Athena to the nurturing Demeter and the creative Aphrodite, and explains how to decide which to cultivate and which to overcome, and how to tap the power of these enduring archetypes to become a better "heroine" in one's own life story.

You Are a Goddess Harper San Francisco

At some point after fifty, every woman crosses a threshold into the third phase of her life. As she enters this uncharted territory -- one that is generally uncelebrated in popular culture -- she can choose to mourn what has gone before, or she can embrace the juicy crone years. In this celebration of Act 3, Jungian analyst Jean Shinoda Bolen names the powerful new energies and

potentials, or archetypes, that come into the psyche at this momentous time, suggesting that women getting older have profound and exciting reasons for welcoming the other side of fifty. As Bolen has explained in her remarkable body of work, there are goddesses in every woman, deep archetypal sources of wisdom, authenticity and spirituality that, once tapped, energize us and give us a sense of meaning and self-acceptance. The knowledge of which archetypes are active within us at each phase of life--maiden, mother (or matron), and crone--supports us in making choices that are true to who we are instead of conforming to others' ideas of who we should be. In Bolen's bestselling *Goddesses in Everywoman*, the classic

work of the women's spirituality movement, the Greek goddesses personified these archetypes as they affected the first two phases of a woman's adult life. Now she explains that in the third stage, marked physiologically by menopause, there emerges a whole new cast of inner archetypes that a woman can draw on for guidance, creativity, personal integration, and joy. Once we learn to recognize these forces, we can feel empowered and wise, introspective and spiritual, sexually bold and full of mirth. For it is in the "wisewoman" years, when a woman has lived long enough to resolve the tasks of younger and middle adulthood, that she can fully and authentically become who she deeply is. The generation of women who

are approaching or who have reached the crone years is historically unique. Influenced by the women's movement, they have benefited from educational opportunities, women's support networks, and economic resources as excellent preparation for decades of active postmenopausal life. By recognizing the goddess archetypes that emerge in this phase, women of this special generation will be enabled to transform the crone years into the best years of their lives. The bestselling, widely heralded, Jungian introduction to the psychological foundation of a mature, authentic, and revitalized masculinity. Redefining age-old concepts of masculinity, Jungian analysts Robert Moore and Douglas Gillette make the argument that mature masculinity is not abusive or domineering, but generative, creative, and empowering of the self and others. Moore and Gillette clearly define the four mature male archetypes that stand out through myth and literature across history: the king (the

energy of just and creative ordering), the warrior (the energy of aggressive but nonviolent action), the magician (the energy of initiation and transformation), and the lover (the energy that connects one to others and the world), as well as the four immature patterns that interfere with masculine potential (divine child, oedipal child, trickster and hero). King, Warrior, Magician, Lover is an exploratory journey that will help men and women reimagine and deepen their understanding of the masculine psyche.

Myths are fascinating stories that become even more intriguing when we realize that they can reveal intimate

truths about ourselves and others. Jean Shinoda Bolen brings the Greek pantheon to life as our inner archetypes and applies the power of myth to our personal lives. Once we understand the natural progression from myth to archetype to personal psychology, and realize that positive gifts and negative tendencies are qualities associated with a particular goddess within, we gain powerful insights. Depending on which goddess is more active within, one woman might be more committed to achieving professional success, while another more fulfilled as a wife and mother. Bolen teaches women how to decide which qualities to cultivate and which to overcome, and how to tap the power of these enduring archetypes to become a better heroine in their own life stories.
