This book is an illustrated collection of short stories and memories of a Zimbabwean Professional Guide who

loves what he does! All of the stories are factual accounts, that happened to me, except the one about Alistair Hull, a close colleague. These stories were about incidents that happened to me during the early years of eco-tourism in Zimbabwe, prior to 2000. All of the photographs (except where indicated) were collected by myself at different times during this period, and I have attempted to present them in a sequence similar to the stories. Motorcycle Gear: The Ultimate Guide to the Safest Helmets, Jackets, Pants,

Gloves, Boots, Airbags, and Accessories" is the only comprehensive resource available on the global market to help the rider to identify, buy, and wear the highest quality and safest motorcycle gear. The innovation to both motorcycles and riding gear has taken off in recent years, providing accident and injury mitigating technologies like Antilock Braking Systems, Traction Control Systems, Kevlar, and viscoelastic polymer armor. But just as the R&D into the physical products has taken off, so has the marketing aimed at selling gear and accessories. Manufacturers and retailers alike are guilty of intentionally leading buyers astray in the effort to boost revenue, at our expense. Without spending hundreds of hours understanding the differences in materials, the commonly employed deceptive marketing practices, and simply the wide array of gear out there, how can we be certain that we'll be safe in an accident? The industry has left the riding community to their own devices to make informed buying decisions and that's where our book comes in. We did the research,

gathered the information, crunched the numbers, and consolidated the important stuff into a single resource to save you time, money, and skin. Motosafer and this book are founded on the core values of safe riding, educated buying, and industry transparency.
