From the day it was released in 2000, Keeping

a Nature Journal has struck a profound chord
among professional, casual, and occasional
naturalists of all ages. In response to this

groundswell of enthusiasm, we have revised **KEEPING A NATURE JOURNAL**, updated the interior design, and created a new cover. Undoubtedly the most exciting new element in this second edition is a portfolio of 32 illustrated pages from Clare Walker Leslie's most recent journals, reproduced in full color. What makes **KEEPING A NATURE JOURNAL** so popular? It is inspiring and easy to use. Clare and co-author Charles Chuck E. Roth offer simple techniques to give first-time journal-keepers the confidence to go outside, observe the natural world, and sketch and write about what they see. At the same time, they motivate long-time journal-keepers to hone their powers of observation as they immerse themselves in the mysteries of the natural world. Clare and Chuck stress that the journal is a personal record of daily experience and the

world around us. Nature's beauty can be observed everywhere, whether in the city, suburbs, or country.
