Since 1958 the Maritime Administration has continuously conducted instructions in use of collision avoidance radar for qualified U.S. seafaring personnel and representatives of interested Federal and State Agencies. Beginning in 1963, to facilitate the expansion of training capabilities and at the same time to provide the most modern techniques in training methods, radar simulators were installed in Maritime Administration's three region schools. It soon became apparent that to properly instruct the trainees, even with the advanced equipment, a standardize up-to-date instruction manual was needed. The first manual was later revised to serve both as a classroom textbook and as an onboard reference handbook. This newly updated manual, the fourth revision, in keeping with Maritime Administration policy, has been restructured to include improved and more effective methods of plotting techniques for use in Ocean, Great Lakes, Coastwise and Inland Waters navigation. In this book, jambalaya has less than ten, but sacrifices nothing in the way of flavor and even offers exciting yet simple substitutions. With 101 original, personal recipes such as Mr. Sam's Stuffed Crabs, Duck Camp Shrimp & Grits, and Silver Queen Corn Pudding, Besh Big Easy is chock-full of the vivid personality and Louisiana flavor that has made John Besh such a popular American culinary icon.
