What are the most common engine problems with a Mazda RX8 ...

The infamous RX8 flooding problem, which required a tow, priming, and plugs replacement to restart. 90000 mi US \$1000 Engine compression failure in one rotor. Engine would not turn over due to flooding (typical on this model when spark plugs and/or coils need replacing).

That's a mighty bold statement and we surely have your attention. Let's begin with a bit of background. It's no secret that the RX-8 has had a spotty record with engine life. While many have 100,000+ mile lifespan, far too many have gone far less. There is no single item that can be changed to double the engine life. I
